

Steeped in Clarity

A Tea & Coaching Collaboration

Point Loma Tea has always been a place where people pause, slow down, and connect. It 's exactly the kind of atmosphere where meaningful conversations naturally unfold. I ' d love to bring that spirit into a collaborative series that blends the beauty of tea with the power of guided reflection and conversation. Steeped in Clarity is a cozy, 60-minute tea and coaching experience designed for women who love tea and are also seeking more clarity, confidence, and alignment in their lives. The experience feels warm and conversational—like an afternoon among friends—and offers something truly unique to both of our audiences.

The Experience

Each 60-minute session includes: A curated tea service (three teas) and light bites provided by Point Loma Tea A guided reflection or journaling exercise led by Bright Finch Coaching A group conversation weaving in themes of clarity, confidence, and alignment A small take-home element such as an intention card or tea tag reminder Group Size: 6–8 guests to keep the experience intimate and engaging.

Shared Goals

Attract new customers and deepen loyalty for Point Loma Tea Create a welcoming entry point for Bright Finch Coaching Position the shop as a destination for meaningful community experiences—not just a place to buy tea I ’ d love to begin with a pilot event in January 2026 and see how the community responds. If it resonates, we could grow Steeped in Clarity into a signature series and a regular highlight at Point Loma Tea.

“ A space to pause, sip, and rediscover what matters most. ”
